RETAIL PRICE LIST

Sasanqua Papaver

DAPHNE, ALABAMA

The kiss of the sun for pardon,
The song of the birds for mirth,
One is nearer God's heart in a garden,
Than anywhere else on earth.

CULTURAL NOTES ON AZALEAS, CAMELLIAS AND OTHER SHRUBS AND TREES

The planting and care of all plants listed—for practical purposes—is identical.

Any good garden soil, slightly acid, with plenty of rotted leaves and leaf mold from hardwood trees, such as oak, bays, gums, etc., worked in—is satisfactory. The soil must be well drained. Azaleas or Camellias, in fact, very few plants will tolerate standing water or water saturated soil.

The actual planting is important. Never plant any deeper than previous planting—even an inch or two too deep—will produce a sickly plant. It is advisable to plant Azaleas and Camellias slightly higher than previous planting, bringing the surrounding soil up to the balls. This allows for gradual sinking in soft soil.

Fertilizer—Silver Bay Nurseries do not recommend heavy fertilizer. If plenty of leaf mold is used in the soil and as a mulch—very little extra fertilizer is needed. Cottonseed meal, tung nut meal, or well rotted barnyard material are excellent and organic fertilizers. Too much fertilizer produces too much top growth and such plants do not bud or bloom well. Also too much fertilizer can easily injure tender root systems.

Two applications of fertilizers a year is generally practiced—the first soon after blooming, in early spring—the second from middle to last of June.

Spraying—Volck used at the rate of one part to 50 parts of water, adding one to two teaspoons of Black Leaf 40 to every gallon of water, is effective against all scale and most insect pests. Spray should never be used in late Fall as a freeze causes great damage if it hits soon after spraying.

Caution: Never use any oil spray during hot weather, as it will cause serious damage.

Watering—Both Camellias and Azaleas love a humid atmosphere. Use plenty of water, especially during the hot dry spells. Keep all newly transplanted stock well watered. Soak thoroughly when planting, and do not allow to dry out.

Mulching—A good mulch—three to four inches—of leaves or pine straw is beneficial. In the winter bring mulch well up on and between the stems of the plant; damage from freeze often occurs at the base of a plant.

Sizes—It is almost impossible to quote the exact sizes of all plants, in the various price groups. Some varieties are vigorous upright growers, while others are slower, more dwarf or compact growers. For example, in a price group listing plants 12-18 inches, the strong growers will be about the full 18 inches, while the slower growers will be about the 12 inches. The small plant being as old or older than the larger plant.

Balled and Burlapped Stock—Do not disturb the burlap in any way. It is not necessary to remove the nails. Plant just as you receive it. The burlap soon deteriorates in the ground.

CONDITIONS OF SALES AND TERMS

Cash with order.

Guaranty—All stock sold subject to crop losses or through unavoidable causes. We are careful to keep our varieties true to name and will replace on proper proof any stocks that may prove otherwise. No claims will be considered unless made within ten days after receipt of plants.

We do not guarantee plants to live, as this depends on conditions beyond our control.

Shipping—We request customers to give definite shipping instructions. All shipments to travel at the risk and expense of the customer. All evergreen plants are balled and burlapped unless otherwise specified. Please add 10% packing charge for such stock. Minimum crating charge \$1.00. We do not charge for packing on smaller plants and deciduous shrubs or trees.

Location—Silver Bay Nurseries are located on the Eastern Shore of Mobile Bay 2½ miles North of Daphne, Alabama.

These prices cancel all previous prices.

Silver Bay Nurseries stock is all grown in the open—some in the semi-shade of trees—some in the full sun, just under such conditions as the plants would have in your own yards. We use no chemical fertilizers. The plants are not forced in any way. All plants are given plenty of room for proper root and top development. All stock has been sprayed, and of course, inspected, and certified to be free from disease.

The plants listed are hardy and healthy and should go right on growing in your yards, with the minimum of attention. We list many rare, scarce and "hard to get plants." We have some of the varieties listed in very limited numbers. We advise you to place your order now, to get your choice of varieties.

It will be a privilege to serve you and if we are favored with your order it will have our special, personal attention.

Thanking you,

Silver Bay Nurseries,
Daphne, Alabama.

Each year more and more people are giving living growing plants as gifts for all occasions.

A Gift that won't wear out.

A Gift that will not be used up.

But a gift that will become more beautiful and more valuable year after year.

What finer gift than a living, growing plant

For Birthdays—For Christmas,

For Mother's Day—For Anniversaries,

For Weddings—For any occasion.

Year after year this gift will be a reminder of your thoughtfulness.

Silver Bay Nurseries make a specialty of selecting and sending fine plants for gifts with special card and wrapping. Write us your requirements.

SPECIAL GROUP 2
RARE CAMELLIAS
OWN ROOT

Admiral Nimitz—Pink with white, large, full double, formal type. Sizes, 4-6 in. to 6-8 in.

Adolph Audusson—Very large, heavy, semi double, deep red with white blotches, hardy. Sizes, 4-6 in. to 12-18 in.

Beauty of Holland—Beautiful sport of Herme, rosy pink with white blotches, large, loose peony. Sizes, 4-6 in. to 18-24 in.

Colonial Lady—Another fine sport of Herme. Snowy white with a few red stripes. Large loose peony. Sizes, 4-6 in.

Capt. Martin's Favorite—Full double, pink with white variegation, profuse bloomer. Sizes, 4-6 in. and 8-12 in.

Colletti Maculata—Very showy, white with bright red, full peony, slow grower with very dark green leaves. Sizes, 4-6 in.

Catherine Cathcart—Popular, well known variety. Full double, shell pink mottled white. Sizes, 4-6 in. to 24-30 in.

C. M. Wilson—Flesh pink sport of Elegans Chandleri. Same excellent merits of the parent plant. Hardy, profuse bloomer, fine foliage. Becoming very popular and in demand. Size, 24-30 in.

Daikagura—(Var.) Popular, early blooming variety. Large, full peony, rose with white. Sizes, 4-6 in. to 12-18 in.

Donckelari—(True Type) Greatly admired, good hardy variety. Large, semi double, dark red, flecked white. Very slow grower. Sizes, 4-6 in. and 6-8 in.

Donckelari—(Tea Garden) Same as above, but more white. Sizes, 4-6 in. and 6-8 in.

Flame—The name of this fine Camellia describes it. Large, semi double, flame red, hardy. Sizes, 4-6 in.

Flame—(Var.) Same as above with slight white variegation. Sizes, 4-6 in.

French Imperator—One of the largest flowering varieties. Full peony, dark rose, strong grower. Sizes, 4-6 in. to 8-12 in.

Glen 40—Another popular variety. Dark, rich red, full double, formal type. Slow grower. Sizes, 4-6 in. to 12-18 in.

Hakurakuten—A splendid, large, pure white, large loose peony. Sizes, 4-6 in. to 12-18 in.

High Hat—The immensely popular shell pink sport of Daikagura. Very beautiful, full peony, early bloomer. Sizes, 4-6 in. to 6-8 in.

Imura—Large white, semi double of waxy texture. Resembles an Easter Lily; willowy growth. Sizes, 4-6 in. to 12-18 in.

Kenny—Large, full peony, pink with white, profuse bloomer, even while young. Sizes, 4-6 in. to 8-12 in.

K. Sawada (Plant Pat. 431). Outstanding white. Full double. Sizes, 4-6 in. to 12-18 in.

Kumasaka—(Var.) Rose pink, white variegation, loose peony, hardy, but slow grower. Sizes, 4-6 in. and 18-24 in. only.

Letitia Schrader—Excellent, new variety. Dark red, peony type, but low center petals form a medallion shape. Sizes, 4-6 in. to 8-12 in.

Lila Rosa—Very large. Clear pink, full peony. Sizes, 4-6 in. to 8-12 in.

Lurie's Favorite—Large, semi double. Soft, lavender pink of crepe paper texture; small dark green leaves. Sizes, 4-6 in. to 8-12 in.

Monjisu—(California Donckelari) Rich red, semi double of satiny texture. Very hardy but slow grower. Sizes, 4-6 in. to 24-30 in.

Monjisu—(Var.) Same as above with white variegation. Sizes, 4-6 in. to 18-24 in.

Mdm. Chiang Kai Shek—Lovely, large, clear pink semi double. Sizes, 4-6 in. to 8-12 in.

Nagasaki—Beautiful, very large, semi double. Deep rose with white, dark green leaves. Sizes, 4-6 in. to 24-30 in.

Pearl Harbor—Very large. Incomplete double to full double, rose red, late bloomer. Good grower with large leaves. Sizes, 4-6 in. to 12-18 in.

Rosea Superba—Another most popular variety. Very large, deep pink, full double. Sizes, 4-6 in. to 30-36 in.

Rosea Superba—(Var.) Same as above with white blotches. Sizes, 4-6 in. to 12-18 in.

Rev. John Bennett—Good hardy variety. Very large, semi double of soft salmon pink. Sizes, 4-6 in. to 12-18 in; also 3-4 ft. to 4-5 ft. spec.

Red Hibiscus—Large, rosy red; semi double to loose peony, stamens often form small petaloids making this a most interesting and different variety, early bloomer with fine dark leaves. A collectors variety. Sizes, 4-6 in. to 12-18 in.

Smiling Beauty—Semi double, soft shell pink; small dark green leaves, compact grower. Sizes, 4-6 in. to 8-12 in.

Swan—A most beautiful large white, semi double of waxy texture; very hardy, willowy grower. Sizes, 4-6 in. to 6-8 in.

Showa No Homare—Unusual; large single white, fluted petals of waxy texture. Sizes, 4-6 in. to 12-18 in.

Tiara—(Var.) Beautiful, bright red with distinct white blotches; semi double. Sizes, 4-6 in. to 8-12 in.

Victory White—A really good white. Large full peony with golden stamens intermixed in the center petals. Fine strong grower, profuse bloomer. Sizes, 4-6 in. to 18-24 in.

Ville De Nantes—Undoubtedly one of the most beautiful of all Camellias. Seedling of Donckelari; very hardy but slow grower. Dark red, semi double, with white variegation. Center petals standing upright forming "rabbit ears". Sizes, 4-6 in.

White King—Very large, semi double; petals of waxy texture. Good grower and hardy. Sizes, 4-6 in. to 8-12 in.

White Crane—Beautiful, large, loose peony with golden stems intermixed in center petaloids. Sizes, 4-6 in. to 12-18 in.

White Giant—Very large peony; handsome, sturdy grower. Large, heavy dark green leaves. Sizes, 4-6 in. to 8-12 in.

White Queen—Large, semi double of heavy waxy texture. Good, hardy grower; late bloomer. Sizes, 4-6 in. to 24-30 in.

Woodville Red—Extremely large, full peony, bright red. Rather light foliage; slow grower but profuse bloomer. Sizes, 4-6 in. to 6-8 in.

White Empress—One of the largest whites; semi double with large center of golden stamens. Long dark green leaves; one of the best. Sizes, 8-12 in. to 30-36 in.

White Elegans—Grand new sport of Elegans Chandleri. The same fine growth, foliage, profuse blooming ability and the same sturdy hardiness. Flower is almost identical but snowy white. Sizes, 30-36 in. spec.

RARE CAMELLIA GRAFTS

Many of the varieties of rare Camellias are slow, delicate growers on their own roots. By grafting these varieties to the root of a hardy, fast growing variety, we procure a fine, hardy, faster growing rare Camellia. The blooms of a graft are often larger and finer than those of the same variety on its own root. The grafts generally bud and bloom the second year—but a few varieties seldom bloom until the third year.

We highly recommend our grafted Camellias—all are strong, sturdy plants in fine condition.

All grafts are five to six years old or older—fast growing, hardy understock.

Sasanqua Rosea Grandiflora

CAMELLIA SASANQUA

JEWELS FROM THE ORIENT

These handsome flowering plants, one of the finest of the evergreens, are just now becoming popular and well known. Same family as the Camellia Japonica, but for the most part faster growing and much hardier. They can be grown successfully much

farther North than the *Camellia Japonica*. They are profuse bloomers—coming into bloom the last part of September, continuing on thru the early Winter; blooming at a time when nothing else is in color. Flowers are in several colors and shades; about the same size as the *Camellia Japonica* ranging from single to semi double, with a cluster of beautiful golden stamens in the center. The single varieties are exquisite in their fragile beauty. The leaves are somewhat long, very slender and very dark shiny green. Many varieties have a slight, delightful fragrance. With the exception of a few slow compact growers, the younger plants grow in a rather open, upright manner but as they grow older, they fill up and develop into very fine, compact plants. At the blooming season, butterflies and bees are generally flying and hovering among the blossoms. This is indeed a charming sight. The *Sasanquas* are a real pleasure — used as specimen plants, in foundation plantings, as screens or in the shrubbery beds.

CAMELLIA SASANQUA

Your selection:

Any six—\$1.00 plants.....\$5.00

Any five—\$2.00 plants.....\$9.00

Larger Sizes—10 per cent discount—Any six plants or more.

Crimson Bride—Large single, rose red, tall, upright growth. Sizes, 12-18 in. thru 6-8 ft. spec.

Cinderella—Large single, two toned flowers; white at center, fading to a delicate pink at edges. Sizes, 12-18 in. and 18-24 in.

Cleopatra—Popular variety. Very compact, bushy growth, semi double, cherry red flowers with crinkled and wavy petals. Sizes, 12-18 in. thru 3-4 ft. spec.

Floribunda—Large white flowers, edged with lavender. Upright, graceful growth. Sizes, 12-18 in. thru 4-5 ft. spec.

Mine-No-Yuki—(Snow on the Mountain) A great favorite. Large, white, carnation like flower. Strong spreading growth. Sizes, 12-18 in. thru 6-8 ft. spec.

Negishikko—Large single, deep rose, strong, graceful growth. Sizes, 12-18 in. thru 24-30 in; also 6-8 ft. spec.

Papaver—Very charming. Large single to semi double. Delicate flesh pink. Sizes, 12-18 in. thru 4-5 ft. spec.

Rosy Mist—Very large, delicate flesh pink, semi double, spreading growth; leaves somewhat larger and lighter than most of the *Sasanquas*. Very desirable. Sizes, 12-18 in. thru 4-5 ft. spec.

Rosea Grandiflora—Very large. Soft pink petals, lighter toward the center. Spreading willowy growth. Sizes, 12-18 in. thru 4-5 ft. spec.

Rosea—One of the showiest of all, and very popular. Large, single, bright, dark rose; strong, graceful growth. Sizes, 12-18 in. thru 6-8 ft. spec.

Setsugekke—Very beautiful. Large semi double, white wavy petals, faintly edged with pink. Strong upright growth. Sizes, 18-24 in. thru 6-8 ft. spec.

PRICES ON ABOVE GROUP

12-18 in.....	\$1.00 Each	30-36 in. spec.....	\$5.00 Ea.

	6-8 ft. spec.....		\$15.00 Each

Due to the slower growth of the following varieties, we list them in this special price group.

Dawn—Considered the hardiest of all Camellias. Will bloom after a hard freeze. Very lovely, double white flowers; wavy petals faintly edged with pink. Sizes, 8-12 in. thru 3-4 ft. spec.

Hino De Gumo—Large semi double. White with deep blush on edges. A good new variety, generally obtainable only in grafts. Strong, upright growth. Sizes, 30-36 in. and 3-4 ft. spec.

Velvety—Large single, crimson red, lighter at center. Compact growth. Sizes, 8-12 in. thru 3-4 ft. spec.

Versicolor—Flowers vary, shading from a white center to pink and lavender at the edges. Unusual and charming. Sizes, 8-12 in. thru 3-4 ft. spec.

White Cleopatra—We believe this is the first time this charming Sasanqua has ever been listed. A sport of the well known Cleopatra. Same compact growth, but the double flowers are snowy white with sometimes a delicate pink at the edges. Sizes, 8-12 in. and 12-18 in.

AZALEAS

150,000 AZALEAS IN STOCK

INDICA AZALEAS—The most popular group of all Azaleas. Fast growers with masses of large flowers. Evergreen and hardy in the Southern States. Silver Bay Nurseries specialize in Azaleas for landscaping uses. All Silver Bay Nurseries Azaleas, even the smallest sizes, are grown in the open—in just ordinary soil conditions. They are not forced in anyway. This insures the purchasers a healthy, hardened plant that should go right on growing with the minimum of attention.

We have many fine specimen plants in most of the varieties. Ranging in price up to \$25.00. If interested in these larger sizes, write for detailed description.

We offer the following varieties in the following sizes and price groups.

Brilliant—(Mid Season) Deep watermelon pink. Small shiny, dark green leaves, low spreading growth. Sizes, 8-12 in. thru 18-24 in. spread.

Coccinea Major—(Late) Bright, bright red. Low spreading growth. Sizes, 8-12 in. thru 24-30 in. spread.

Criterion—(Late) Flesh pink, white markings on petals. Sizes, 8-12 in. and 12-18 in. spread.

Duc De Rohan—(Early) Dwarf grower. Soft salmon pink. Sizes, 8-12 in. thru 18-24 in. spread.

Daphne Red—(Mid Season to Late) Graceful, arching branches. Very hardy. Red. Sizes, 8-12 in. thru 30-36 in. spec.

Dorking—(Late) Dark rose red, slow growth. Sizes, 8-12 in. and 12-18 in. spread.

Early Lavender—Blooms Spring and Fall. Upright growth. Sizes, 8-12 in. and 12-18 in. spread.

Elegans—(Early) Large, clear pink. Upright, vigorous growth. All sizes.

Formosa—(Mid Season) Large lavender. Handsome foliage, strong, vigorous growth. All sizes.

Fielders White—(Early) Most popular. White, bushy, compact growth. Sizes, 8-12 in. thru 18-24 in. spread; also 4-5 ft. spec. and larger sizes.

George Taber—(Mid Season) Large, flesh pink, slightly darker markings at throat. Strong, bushy growth. Sizes, 8-12 in. thru 24-30 in. spread.

Gulf Pride—Blooms Spring and Fall. Light, delicate lavender; strong, upright growth. Sizes, 8-12 in. thru 30-36 in. spread.

Glory of Sunninghill—(Late) Flame red. Low spreading growth. Sizes, 8-12 in. thru 18-24 in. spread.

Indica Alba—(Mid Season) Pure white. Hardy, upright growth. Sizes, 8-12 in. thru 18-24 in. spread.

Iveryana—(Late) Very large, white, with red markings. Dwarf, compact growth. Sizes, 8-12 in. thru 12-18 in. spread.

Judd—(Mid Season to Late) Rare, new variety. Large double flame red; heavy, leathery foliage. Hardy. Sizes, 8-12 in. thru 18-24 in. spread.

Lawsal (Daphne Salmon) (Early to Mid Season) Light salmon pink. Very Hardy. Upright growth. Sizes, 8-12 in. thru 30-36 in. spread.

Lady Edith—(Late) Large, soft salmon pink with white variegations. Dwarf, compact growth. Sizes, 8-12 in. thru 30-36 in. spread.

Martha Louise—(Late) Large, salmon pink. Rare. Handsome foliage; strong spreading growth. Sizes, 8-12 in. thru 24-30 in. spread.

Mdm. Dominique—(Late) Very rare. Light pink with white variegation. Dwarf, compact growth. Sizes, 8-12 in. and 12-18 in. spread.

Omurasaki—(Mid Season) Parent plant of George Taber. Large, light violet. Hardy. Strong vigorous growth. Sizes, 8-12 in. thru 24-30 in. spread.

Prince of Orange—(Late) Large, deep Orange red. Dark, luxurient foliage; bushy, spreading growth. Sizes, 8-12 in. thru 3-4 ft. spread spec.

Pride of Mobile—(Queen of Azaleas) Mid Season. To see this beautiful plant in full bloom is to know why it is the most beloved of all Azaleas. Large, bright watermelon pink, handsome foliage, hardy, vigorous spreading growth. All sizes.

Phoenicia—(Mid Season to Late) Large, lavender. Vigorous, compact growth, splendid foliage. Very hardy and drouth resistant. All sizes to \$15.00 spec.

Pres. Clay—(Early to Mid Season) Red, most vigorous, upright grower of the reds. Sizes, 8-12 in. thru 24-30 in. spec.

Southern Charm—(Mid Season) Bright pink sport of Formosa, with the same fine habits of growth and foliage. Sizes, 8-12 in. thru 18-24 in. spread.

Tilney Red—(Early to Mid Season) Bright, light red. Upright growth. Sizes, 8-12 in. to 12-18 in. spread.

Violacea Rubra—(Late) Very rare, beautiful rich violet. Large, wavy petals. Sizes, 12-18 in. and 18-24 in. spread.

Vittati Fortunei—Blooms Fall and Spring. White with lavender markings at throat. Hardy, strong, upright growth. Sizes, 8-12 in. thru 30-36 in. spread.

Wm. Bull—(Mid Season to Late) Double, rose like bloom. Upright open grower. Sizes, 8-12 in. and 24-30 in. spread.

Before ordering—check sizes carefully. We do not have all sizes in all varieties.

KURUME AND PERICAT AZALEAS

More commonly known as dwarf Azaleas — the popularity of these beautiful, profuse blooming plants is increasing rapidly, as they become better known. Used singly, or in groups, with other plants, as borders or in intire beds, they produce most beautiful landscape effects. When in bloom, they assume a riot of color—but, also, with their many branches and small, shiny green leaves, they are beautiful when not in bloom—blending perfectly with all other landscape material. These Azaleas offer a wider range of color than any other variety. Some produce single flowers and some a double flower, which is one complete flower inside another. These are known as, “hose in hose.” They are surprisingly hardy—will grow as far north as Long Island, N. Y., when planted in sheltered locations. We offer the following varieties in several price groups.

Bridesmaid—(Mid Season to Late) Lovely salmon. Sizes, 6-8 in. and 8-12 in. spread.

Cattleya—(Late) Delicate lavender tinted on flesh pink. Sizes, 12-15 in. and 15-20 in. spread.

Christmas Cheer—(Mid Season) Popular variety, bright crimson. Sizes, 6-8 in. thru 15-20 in. spread.

Coral Bells—(Early to Mid Season) Very popular and desirable. Bright pink. All sizes.

Carmine Prince—(Mid Season to Late) Light rose red. Sizes, 6-8 in. and 8-12 in. spread.

Double Mauve—(Mid Season to Late) Delicate lavender edges, shading to white center. Sizes, 6-8 in. thru 20-24 in. spread.

Delicatissima—(Early to Mid Season) Very dainty. White petals edged with lavender. Sizes, 6-8 in. to 12-15 in.; also 15-20 in. and 20-24 in. spread.

Gardenia Supreme—(Pericat Variety) (Early to Mid Season) Snow white with faint pink at throat. Sizes, 6-8 in. thru 20-24 in. spread.

Hardy Firefly—(Mid Season) Firey red. Sizes, 6-8 in. thru 12-15 in. spread.

Hortensia—(Mid Season to Late) Light, soft pink. Sizes, 6-8 in., 12-15 in. and 15-20 in. spread.

Hinodegiri—(Mid Season to Late) A great favorite. Hardy, profuse bloomer, bright, rose red. Dwarf, compact grower. Sizes, 6-8 in. thru 15-20 in. spread.

Lavender Queen—(Early to Mid Season) Lavender, dwarf, compact grower. Sizes, 6-8 in. thru 12-15 in. spread.

Madame Pericat—(Pericat Variety) Blooms Spring and Fall. Light pink. Sizes, 6-8 in. thru 20-24 in.

Pink Pearl—(Mid Season to Late) Light pink, shading to a lighter shade at the throat. Sizes, 6-8 in. thru 15-20 in. spread.

Salmon Beauty—(Early to Mid Season) Light salmon pink. All sizes.

Snow—(Mid Season) Pure white. Sizes, 6-8 in. thru 20-24 in. spread.

Sweetheart Supreme—(Pericat Variety) (Mid Season) Blush pink, double like sweetheart rose. All sizes.

Yaye Giri—(Early to Mid Season) Flame red. Sizes, 12-15 in. and 15-20 in. spread.

Check over sizes carefully before ordering. We do not have all sizes in all varieties.

SPECIAL

RARE KURUMES

A special group of splendid Kurumes. Same habits of growth—just as hardy—but very new—very rare and very beautiful. You will be proud of any or all of these.

Fuji No Asahi—(Mid Season) Large double, pure white with faint salmon pink, flushed on the tips of each petal. Sizes, 6-8 in. thru 20-24 in. spread.

Hime Ka Gami—(Mid Season) Double, pure white with faint pink stripes. Sizes, 6-8 in. thru 12-15 in. spread.

Kintaiyo—(Mid Season to Late) A true dwarf, never reaching more than 24 inches in height. Large double white, bell shaped flower. Each petal edged with bright orange. Distinctive and lovely. Sizes, 6-8 in. and 8-12 in. spread.

Mizu—No-Yamabuki—(Mid Season) Creamy white flowers. The only evergreen Azalea with a yellowish cast. Habits of growth and foliage, similar to Christmas Cheer. Sizes, 6-8 in. thru 12-15 in.

Orange Bells—Blooms some in Fall and profusely in Spring. Double, bright, orange. Fine, dark green foliage, very hardy. Sizes, 8-12 in. thru 20-24 in. spread.

Vivid—Blooms profusely, Fall and Spring. True dwarf. Large, double, deep red flowers. Small, shiny, dark green leaves. Very desirable. Sizes, 6-8 in. thru 12-15 in. spread.

Yukumo—(Mid Season to Late) Double, unusual color of soft old rose. True dwarf. Sizes, 6-8 in. thru 12-15 in. spread.

MACRANTHA HYBRID AZALEAS

We offer again this year a limited number of these beautiful Azaleas. The longer we have these Azaleas and the more we work with them—the more we admire them. This group blooms later than the Indicas and Kurumes—thus prolonging the Azalea season for several months. Usually from April until June; but, some of the varieties will bloom nearly all Summer. The flowers are very individual. Very large, some are single with wavy petals—some double and some are hose in hose. They offer a wide range of color. Dwarf and semi-dwarf in habit of growth; the plants grow compact and bushy, with small, dark green leaves, they make a splendid landscape plant, whether in bloom or not.

The Macranthas are considered much hardier than any other evergreen Azaleas. They will grow and do well much farther North and under more adverse conditions. For interest and beauty, everyone loving plants and flowers should add these splendid hybrids to their plantings. They will give you real enjoyment and you will be very proud of them.

Beni-Kiren—(Double) Brilliant red. All sizes.

Fuji Nishiki—Very large single, wavy petals. Pure white with faint lavender stripes. All sizes.

Izayii—(Large Single) 3 inches across. Flesh pink. All sizes.

Sakuragata—Bright rose flower with large patch of white at the throat. Very showy and desirable. All sizes.

Wakae-Bisu—Large flower, hose in hose a beautiful shade of delicate salmon. All sizes.

Wakae-Matsu—Large flower, hose in hose, light, delicate lavender. Blooms slightly earlier than others. All sizes.

SPECIAL AZALEAS

Sho-Qua—As far as we know, we are the first Nursery to list this beautiful new Azalea. We have sold it for several years now, and have wonderful reports about it. Seems to be perfectly hardy and everyone seems to love it. The white flowers are variegated with a lovely shade of salmon. This variegation varies on the same bush from almost solid salmon to almost solid white with a salmon edging to the petals. A more vigorous and faster grower than most of the Macrantha Hybrids.

Yachiyo—Very rare new Macrantha and Indica Hybrid. Compact, dwarf growth. Small, rather long, bright green leaves. Exquisite. Large double light violet flowers. Starts blooming in late Spring and continues on through the Summer and all Fall.

PRICES OF ABOVE TWO VARIETIES

6- 8 in. spread—\$.75 each	2—\$1.40
8-12 in. spread—\$1.25 each	2—\$2.35
12-18 in. spread—\$1.75 each	2—\$3.25

Gumpe—*Macrantha*. One of the rarest and most sought after varieties by collectors of rare plants. True dwarf, very compact growth; never reaching more than 24 in. in height. Flowers as large as the *Indicas*. Snow white petals, with sometimes tiny stripes or dashes of red. Very small, thick, shiny dark green leaves. Hardy. When in bloom this exquisite *Azalea* resembles a ball of snow.

PRICES OF ABOVE

4- 6 in. spread—\$.75 each	2—\$1.40
6- 8 in. spread—\$1.00 each	2—\$1.75
8-12 in. spread—\$1.50 each	2—\$2.75

Helen Dawson—This is a new *Azalea* that we started growing only a few years ago. Really belongs to the *Kurume* family, but the growth and flowers are so different, that we are listing it as a special. Appearance and growth is more similar to the *Indicas*. Large leaves and flowers of a beautiful light violet shade. Blooms along with the late *Indicas*. Said to be hardy as far North as the New England States. Just one size available for this year.

18-24 in. spread	\$2.50 each
------------------	-------------

MACRANTHA AND KAEMFERI AZALEAS

Sometimes known as hardy Japanese *Azaleas*. All are hardy and evergreen with the exception of a few which will lose their leaves in the more Northern localities. Some of our most beautiful and satisfactory *Azaleas* come under this group.

Double Macrantha—Well known favorite and fine landscape plant—bright rose, full double flowers blooming at intervals all Spring and Summer and through the Fall. Small shiny, rather pointed leaves. Sizes, 6-8 in. thru 20-24 in. spread.

Flame Macrantha—The profusion of bright flame red flowers and the dwarf compact growth, similar to boxwood make this evergreen *Azalea* a most beautiful landscape plant. An outstanding variety. Sizes, 6-8 in. to 8-12 in. spread.

Flame-Kaemferi—Considered by many to be the showiest of all *Azaleas*. Clusters of bright flame red flowers early in the season and glossy, bright green foliage. Will grow into a very large plant but may be kept pruned to the desired size. Sizes, 6-8 in. thru 20-24 in. spread.

Kaemferi—Evergreen in the South but will lose its leaves farther North. Hardy as far North as Boston without protection. Large, bright rose flowers, late in the season. Upright growth. Sizes, 6-8 in. thru 12-15 in. spread.

Mary-Kaemferi Hybrid—Open grower, almost deciduous, but beautiful in bloom. Large bright rose flowers. Splendid for naturalizing. Considered very hardy. Sizes, 6-8 in. and 8-12 in. spread.

Pink Macrantha—Spreading, compact growth; small, dark green leaves, evergreen. Bright pink flowers in late Spring. Very good. Sizes, 6-8 in. thru 20-24 in. spread.

ORIENTAL MAGNOLIAS

Many think these are the most beautiful flowering trees in the world. Hardy, in almost all parts of the U. S. Deciduous, the flowers of great beauty and fragrance, appearing before the leaves, in the Spring. We offer these two best varieties.

Magnolia Soulangeana—Most popular variety. Known as, Saucer Magnolia. Immense flowers, 6 inches across. At first, somewhat cup shaped, but opening to a large saucer shape. Light pink on outside and creamy white on the inside, with rose base.

Magnolia Soulangeana Nigra—Dark rich purple on the outside and lighter lavender inside.

8-12 in. each.....	\$.60	12-18 in. each.....	\$1.00
--------------------	--------	---------------------	--------

Aucuba Japonica—(Female) Handsome, shade loving ornamental. Large, deep green leaves of heavy texture. Bright red berries. Hardy.

8-12 in. each.....	\$1.00
--------------------	--------

Aucuba Japonica—(Male Plants)

4-6 in. each.....	\$.60
-------------------	--------

To insure a display of the attractive red berries, the female plants must be pollinated from the male plants. The two varieties should be planted in proximity.

Bambusa Falcata—A good clump Bamboo with feathery foliage. Will grow well in dense shade or full sun. Unexcelled for screens or where large, mass like evergreens are needed. Will grow into a height of 15 ft., but may be kept pruned into formal hedges, either tall or low. This variety does not put out suckers, but grows into a compact clump.

Small Clump, ea.....	\$.60	Medium Clump, ea.....	\$1.00
		Large Clump, ea.....	\$2.00

Buddleia—(Lindleyana) Evergreen butterfly bush. Long racemes of lavender flowers all Summer, until freezing. Sun or shade. Drought resistant.

12-18 in. each.....	\$.60	18-24 in. each.....	\$1.00
3-4 ft. spec, each.....		\$2.00	

Buxus Harlandi—The small elongated leaves hold their rich, dark green color through sun and cold. Grows thick and round with little pruning. Very hardy.

4-6 in. each.....	\$.50	6-8 in. each.....	\$.60
-------------------	--------	-------------------	--------

Buxus Japonica—(Japanese Boxwood) Fairly fast growing, compact, small rounded leaves. One of the best.

4-6 in. each.....	\$.50	6-8 in. each.....	\$.60
8-12 in. each.....			\$1.00

Cleyera Japonica—An excellent addition to any planting. Thick, glossy, dark green leaves with bronze or reddish undertones. New growth, reddish bronze, creamy white bell shaped flowers in late Spring followed by red berries in Fall. Sun or shade. Hardy. Somewhat Pyramidal growth.

12-18 in. each.....	\$1.00	24-30 in. each.....	\$2.50
18-24 in. each.....	\$2.00	3- 4 ft. spec.....	\$5.00

Camellia Thea—(Commercial Tea Plant) Bright green, rather long leaves. Compact, graceful growth. Small, white, Camellia like flowers, with bright yellow stamens, all along the graceful branches in late Summer into the Fall months. Ideal for foundation plantings or as specimens. One of the few plants that will do well in full shade. Will also stand sunny locations. Will grow into a very large plant, but may be kept pruned to the desired size. Hardy.

8-12 in. each.....	\$.60	18-24 in. each.....	\$2.00
12-18 in. each.....	\$1.00	24-30 in. spec.....	\$3.00
30-36 in. spec. each.....			\$4.50

Callistemon—(Bottle Bush) Very narrow, long, dark green leaves. Showy, bright red, brush like flowers from April through most of the Summer. If cut back after blooming, will bloom on into the Fall.

8-12 in. each.....	\$.60	18-24 in. each.....	\$2.00
12-18 in. each.....	\$1.00	24-30 in. each.....	\$3.00

Mahonia Beali—Magnificent shade loving plant. Long, thick, glossy, deeply lobed, holly like leaves. Flowers in long yellow spikes followed by bright blue, grape like berries. Hardy. Semi dwarf.

12-18 in. fine spec. each.....\$2.50

Mahonia Fortunei—Another handsome plant for shade or semi shade. The very dark, rich green, palm like leaves make a most pleasing contrast with other shrubs. New growth is bronze tinged. Spikes of yellow flowers followed by bright blue berries. Hardy. Semi dwarf.

8-12 in. each.....\$1.00	12-18 in. each.....\$2.00
--------------------------	---------------------------

Magnolia Fuscata—(Banana Shrub) A truly grand landscape plant. Satiny, bright green foliage. Creamy, white flowers of great fragrance, during the Summer. Will grow into a very large specimen or may be kept pruned as desired.

8-12 in. each.....\$.60	18-24 in. each.....\$2.00
12-18 in. each.....\$1.00	24-30 in. each.....\$3.00
3-4 ft. spec. each.....\$6.00	

Nandina Domestica—Rather slow growth, heads of bright green feathery foliage, which changes to bronze and bright red in the Winter. Large clusters of white flowers in Summer produce the large upright clusters of vivid red berries in Winter. Shade or sun. Hardy.

6- 8 in. each.....\$.60	12-18 in. each.....\$1.50
8-12 in. each.....\$1.00	18-24 in. each.....\$2.00
24-30 in. each.....\$4.00	

Oleo Fragrans—(Sweet Olive) An all time favorite. Rich green foliage. Tiny clusters of white flowers of the sweetest fragrance. Prefers shade or semi shade, but will do well in the full sun. Hardy.

8-12 in. each.....\$.60	12-18 in. each.....\$1.00
18-24 in. each.....\$2.00	
30-36 in. each.....\$5.00	

Pyracanthas—(Firethorn) One of the showiest shrubs of the South. Beautiful in the Spring with its clusters of small white flowers but breath taking in the Winter with its many clusters of bright red berries. Will berry some in semi shade but is better in full sun.

8-12 in. each.....\$.60	2- 3 ft. each.....\$2.00
12-18 in. each.....\$1.00	4- 5 ft. each.....\$4.50
5-6 ft. each.....\$6.00	

Photinia Glabra—(Red Top) The new growth in the Spring, Summer and Fall are firey red, appearing as bright red blossoms from a distance. Should be clipped often to induce more new growth and to keep compact. Hardy. Best in full sun.

8-12 in. each.....\$.60	24-30 in. each.....\$3.00
12-18 in. each.....\$1.00	3-4 ft. spec. ea.....\$5.00
18-24 in. each.....\$2.00	4-5 ft. spec. ea.....\$6.00

Pieris Japonica—(Andromeda) Rare, superb ornamental, with lustrous small leaves, delicately tinted when young. Beautiful, drooping panicles of flowers, resembling Lily of the Valley. Requires shady location. Hardy and different and a shrub you will be proud to own.

8-12 in. spec. each.....\$1.50

Pittisporum—Distinctive, thick, leathery, bright green leaves in whorls at the end of the branches. Splendid for base plantings, as hedges or as specimens. May be pruned into any desired shape. Hardy. Sun or shade. Creamy white flowers of sweet fragrance.

10-15 in. each.....\$1.00 15-20 in. each.....\$1.50

Podocarpus—(**Japanese Yew**) Aristocrat of the conifers. 3 in. leaves about one half inch wide, are rich, dark green. Naturally of pyramidal growth, but are often sheared and used as a handsome low or medium hedge, under windows etc.

12-18 in. each.....\$1.00 24-30 in. each.....\$2.50

18-24 in. each.....\$2.00 30-36 in. each.....\$4.50

Red Barberry—Colorful low growing shrub, almost evergreen in the South, but defoliates farther North. The color is better in full sun. Hardy.

12-18 in. each.....\$1.00 18-24 in. each.....\$2.00

FLOWERING SHRUBS

Your selection—10% discount—any six plants or more.

Flowering Almond—(**Semi dwarf**) Pink rosette like flowers in early Spring. Charming in borders with Azaleas and Spring bulbs.

12-18 in. small clump, each.....\$.60

18-24 in. bushy clump, each.....\$1.00

Althea—Double lavender and single white.

3-4 ft. each.....\$2.00

Cydonia Japonica—(**Japanese Quince**) Exotic, bright red flowers, before the leaves in late Winter and early Spring.

12-18 in. each.....\$.60 18-24 in. each.....\$1.00

24-30 in. spec. each.....\$2.00

Crepe Myrtle Apple Blossom

Crepe Myrtle—The glory of the South. Great racemes of gorgeous color through the Summer months.

Lavender, purple, red, white.

12-18 in. each.....\$.60 4- 5 ft. each.....\$2.00
3- 4 ft. each.....\$1.00 5- 6 ft. each.....\$3.00

Crepe Myrtle-Apple Blossom—Beautiful new blush pink hybrid. We wish you could read the fine letters we have received from many, who have purchased these lovely Crepe Myrtles from us. Rather slow somewhat pendulous growth, but just as hardy as the other varieties. The immense racemes of the delicate blush pink flowers are a pleasure to all who see them.

2- 3 ft. each.....\$1.50 3- 4 ft. each.....\$2.50

Note—All Crepe Myrtles should be cut back to old wood, during the Winter. Thus forming more and stronger new wood. The blooms are on the new wood. Crepe Myrtles are gross feeders; needing an application of fertilizer in Feb. and again in late Spring. If cut back after the first blooming, another blossoming period may be induced, lasting well into late Summer. Silver Bay Nurseries Crepe Myrtles are becoming well known throughout the Southeastern States for their splendid growth and gorgeous blooms.

Deutzia—Good, large growing shrub for background or specimen. Best in partial shade. Clusters of charming white, bell shaped flowers with slight pink shadings, in late Spring. Especially valuable, as it blooms later than the other white blooming background plants, such as Spireas and Dogwoods.

18-24 in. each.....\$.60 24-30 in. each.....\$1.00
30-36 in. each.....\$2.00

5-6 ft. heavy spec. each.....\$4.00

English Dogwood—(*Philadelphus Grandiflorous*) One of the most beautiful white flowering background or specimen plants. Charming with the late blooming Azaleas, and other brightly colored flowering shrubs. Large, snowy white flowers, literally cover the arching branches.

18-24 in. each.....\$.60 3- 4 ft. each.....\$2.00
24-30 in. each.....\$1.00 4- 5 ft. spec. ea.....\$4.00
5-6 ft. spec. each.....\$6.00

Eunonymous Americana—Really good, for shady places. Dark green slender stems. Excellent dark green foliage. Very dainty and interesting clusters of tiny, pinkish tan flowers in Spring. Very showy red seed pods, which stay on well into the late Fall. Also attractive in flower arrangements, lasting a long time.

12-18 in. small clumps, each.....\$.60

18-24 in. medium clumps, each.....\$1.00

Hydrangeas—Huge blue or pink flowers, depending on culture and soil conditions. Beautiful bright blue here. Perfectly hardy outdoors or may be used as pot plants.

8-12 in. each.....\$.60 18-24 in. each.....\$1.50
12-18 in. each.....\$1.00 24-30 in. spec. ea.....\$2.50

Hydrangeas—White. These bloom true to color.

8-12 in. each.....\$.60 12-18 in. each.....\$1.00

Huckleberry—True old fashioned. Have your pie and eat it too, with this lovely shrub. The tiny, glossy, green leaves turn to brilliant hues in the Fall. White flowers in Spring followed by the blue, black berries, so delicious to eat and for pies and jellies. A haven for birds. We grow the Huckleberries exactly as Azaleas. They belong to the same family.

8-12 in. spread, ea. \$.60 18-24 in. spread, ea. \$2.00
12-18 in. spread, ea. \$1.00 24-30 in. spread, ea. \$3.00

Hypericum—(St. John's Wort) Almost evergreen, bluish green foliage. Interesting, showy, golden flowers most of the Summer.

12-18 in. each\$.60 18-24 in. each\$1.00

Honeysuckle—(Lonicera Zabelli) The best of the red flowering Honeysuckles. The dark red flowers are followed by a good crop of red berries, very attractive to birds.

12-18 in. each\$.60 18-24 in. each\$1.00

Philadelphus Coronarius—This is the true old fashioned Mock Orange. Grandmother's favorite; cluster of waxy, white flowers of the delightful fragrance of Orange blossoms.

12-18 in. each\$.60 3- 4 ft. each\$2.00

2- 3 ft. each\$1.00 4- 5 ft. each\$3.00

Philadelphus Atlas—(Giant Mock Orange) New French Hybrid, hardy, upright grower with a profusion of immense, waxy white flowers to 3 inches in diameter.

18-24 in. each\$1.25

Philadelphus Virginalis—Another desirable improved shrub. Blooms all Summer. The large white flowers are double on the old wood and single on the new growth. Sweetly fragrant.

18-24 in. each\$1.50

Philadelphus Grandiflorous—(See English Dogwood)

Purple Fringe—(Smoke Tree) Listed under Trees.

Rosa Rugosa—Blossoms resemble the wild rose but much larger, followed by attractive red pods. Charming in the shrubbery bed.

12-18 in. each\$.60 18-24 in. each\$1.00

Spirea—(Anthony Waterer) Dwarf, almost evergreen. Blooms all Summer. Flat heads of rosy red flowers. Makes nice borders and low hedges.

8-12 in. each\$.60 12-18 in. each\$1.00

Spirea—(Froebelli) Dwarf, similar to Anthony Waterer but stronger grower and graceful, arching branches. Flower almost identical.

8-12 in. each\$.60 12-18 in. each\$1.00

18-24 in. each\$1.50

Spirea Thunbergia—An old time favorite of great charm. First to bloom in the Spring. Tiny, snow white, button like flowers, literally cover the arching branches. Dwarf.

12-18 in. each\$.60 18-24 in. each\$1.00

Spirea Reevesiana—(Double) Much in demand. Improved Bridal Wreath. Large clusters of snow white double flowers. Somewhat slow growth.

12-18 in. each\$.60 18-24 in. each\$1.00

30-36 in. each\$2.00

Spirea Van Houttei—Favorite Bridal Wreath. Grows into a taller and larger plant than Reevesiana. Double white flowers in great profusion.

18-24 in. each\$.60 3- 4 ft. each\$2.00

2- 3 ft. each\$1.00 4- 5 ft. spec. ca.\$4.00

Stewartia Pentagyna—Belonging to the Tea and Camellia family. Rarely offered by Nurseries. A most outstanding Summer flowering shrub or small tree. Grows to 15 ft. White, wavy petaled flowers. 2-3 in. across. Hardy as far North as Mass.

24-30 in. each\$1.50 3- 4 ft. each\$3.00

Sweet Shrub—(Calycanthus) Beloved, old fashioned favorite. Dark red, spicely fragrant flowers and handsome foliage.

12-18 in. each\$.60 18-24 in. each\$1.00

✓ **Vitex—(Chaste Tree)** One of the best old time shrubs, that should be included in every planting. Gray green foliage and steel blue spikes of flowers, both of an enchanting, spicy fragrance. Hardy. Mid Summer blooming period.

2- 3 ft. each	\$.60	4- 5 ft. each	\$2.50
3- 4 ft. each	\$1.00	5- 6 ft. each	\$4.00

Weigelia Eva Rathke—As beautiful as any Azalea, when in bloom. Bright red flowers, over a long period.
12-18 in. each \$.60 18-24 in. each \$1.00

Weigelia Rosea—One of our finest pink flowering shrubs. The deep pink blossoms of great beauty are borne in late Spring and early Summer.

18-24 in. each	\$.60	24-30 in. each	\$1.00
30-36 in. each	\$2.00		

TREES

Your trees are your friends — staunch and true.

Make the world a better place to live in. Plant a Tree.

Your Selection—10% Discount—Any Six Trees or More.

Ash—(White) Hardy, fast growing shade tree. Tolerant to most soil conditions, but particularly adaptable to dry and arid conditions. The pinnate foliage is dense and generally free from insects. Usually grows in a somewhat oval shape, making it valuable as a lawn tree as the grass will grow well underneath. Autumn turns the leaves to shades of yellow and violet.

18-24 in. each	\$.60	3- 4 ft. each	\$1.50
2- 3 ft. each	\$1.00	4- 5 ft. each	\$2.00

Bay—(Spice) Hardy, ornamental small evergreen. Leaves used for spices.

8-12 in. each	\$.60	12-18 in. each	\$1.00
2-3 ft. each	\$2.00		

Bird of Paradise—Rare but hardy. Fernlike foliage and exotic, pale yellow flowers with prominent red stamens.

18-24 in. each	\$1.25	30-36 in. each	\$2.00
----------------	--------	----------------	--------

Chinese Tallow Tree—For quick shade and beauty. The rich, bluish green leaves are round but sharply pointed. In Fall, a riot of color, ranging from yellow through the reds to deep wine. The golden, spike like flowers in April are followed by seed pods covered with wax. These appear as clusters of cotton and serve as a vegetable suet for birds, which are attracted in large numbers. These cotton like berries often used as lasting Winter decorations. Hardy and tolerant of most soil conditions.

18-24 in. each	\$.60	4- 5 ft. each	\$4.00
24-30 in. each	\$1.00	6- 8 ft. each	\$6.00
3- 4 ft. each	\$2.00	8-10 ft. each	\$8.00

Cherry—(Wild Black) Literally burdened with long racemes of white flowers in early Spring. These followed by red berries turning to black, when ripe; edible and for jellies and a paradise for birds. Glossy, dark green leaves. Perfectly hardy. Fast growing, into a large tree.

12-18 in. each	\$.60	2- 3 ft. each	\$1.00
3-4 ft. each	\$2.00		

Camphor Tree—Evergreen of classic beauty. Hardy in this locality, but farther North will kill back in severe weather; quickly reviving in the Spring and making a large growth each year.

8-12 in. each.....\$.60	2- 3 ft. each.....\$2.00
12-18 in. each.....\$1.00	4- 5 ft. each.....\$5.00

Cherry Laurel—Evergreen, bright glossy leaves. Will grow to 40 ft. but may be kept pruned to any desired height. Often used as screens or as a handsome hedge. White flowers followed by black berries. Does well in the shade.

8-12 in. each.....\$.60	12-18 in. each.....\$1.00
18-24 in. each.....\$2.00	

Clerodendron—Rare, small tree. Sometimes called, "Glory Bower." Clusters of fragrant white flowers, with red calyxes, in late Summer; followed by blue fruits.

20-24 in. each.....\$2.00	30-36 in. each.....\$3.00
---------------------------	---------------------------

Cucumber Tree—Large, broad leaves, 12-14 in. across. Immense clusters of white tulip like flowers. Bark always green.

2- 3 ft. each.....\$1.00	3- 4 ft. each.....\$2.00
--------------------------	--------------------------

Dogwood—Beloved favorite. White blossoms early Spring, followed by bright red berries in the Fall.

12-18 in. each.....\$.60	4- 5 ft. each.....\$3.00
2- 3 ft. each.....\$1.00	5- 6 ft. each.....\$5.00
3- 4 ft. each.....\$2.00	6- 8 ft. each.....\$8.00

Elm—(Chinese) Sometimes called the aristocrat of shade trees. Vigorous, rapid growth. Disease and insect resistant. Tolerant of almost any soil or weather conditions. Will withstand severe drouth.

2- 3 ft. each.....\$.60	4- 5 ft. each.....\$2.00
3- 4 ft. each.....\$1.00	5- 6 ft. each.....\$4.00
6- 8 ft. each.....\$5.00	

Fatshedra—(Tree Ivy) New and rare evergreen. We have fallen in love with this delightful small ornamental tree. Large, thick leaves are identical to those of the large leaf Ivy. But grows upright, with the woody stem of a tree; branching into a compact head. Seems to be at home anywhere, sun or shade. Hardy as far North as Long Island. Ideal for any location, where a small tree is needed. Wonderful for porch or patio.

15-20 in. each.....\$1.50
20-24 in. each.....\$2.00

Golden Rain Tree—Rare, but hardy and not hard to grow. Will grow as far North as Mass. in sheltered locations. Long, compound leaves turning to golden tones in the Fall. Large clusters of showy yellow flowers.

20-24 in. each.....\$1.50	24-30 in. each.....\$2.00
---------------------------	---------------------------

Ginkgo—(Maiden Hair Tree) Picturesque shade tree. Attractive leaves, resembling the form of the Maiden Hair Fern. The history of this tree goes back to early geological times. Hardy, disease and insect free.

12-15 in. each.....\$1.25

Honey Locust—Fragrant, white lilac, blooms in Spring. Feathery, lacy foliage. Hardy and tolerant of soil and weather conditions.

18-24 in. each.....\$.60	3- 4 ft. each.....\$2.00
24-30 in. each.....\$1.00	4- 5 ft. each.....\$3.00
5-6 ft. each.....\$4.00	

Kentucky Coffee Tree—Rare. Majestic to 80 ft. Long, compound leaves. Greenish white flowers in large clusters; followed by thick, curved pods which hang on all Winter.

20-24 in. each \$2.00

Live Oak—Famous the world over for their majestic beauty. Evergreen.

8-12 in. each.....\$.60	3- 4 ft. each.....\$4.00
18-24 in. each.....\$1.00	4- 5 ft. each.....\$5.00
2- 3 ft. each.....\$2.00	5- 6 ft. each.....\$6.00

Live Oak—(**Japanese Evergreen Oak**) Grows into a large tree. Faster growing than our better known Live Oak. Grows more compact and the lustrous, very dark green leaves are much broader. Said to be much hardier farther North.

8-12 in. each \$1.00

Linden—Grows into a massive shade tree, dense, attractive foliage. Fragrant, yellow flowers. This is the American variety of the famous Linden trees of Berlin.

30-36 in. each \$1.00

Loquat—(**Japanese Plum**) Hardy, handsome evergreen. Long, stiff leaves, standing somewhat upright, are dark green above, but coated with tiny gray hair underneath. Clusters of fragrant white flowers and delicious plum like fruit.

2-3 ft. each \$2.00

Mimosa—Everybody loves this fine spreading tree, which resembles a huge fern. Pink flowers in Summer. Disease, insect and drouth resistant.

12-18 in. each.....\$.60	3- 4 ft. each.....\$2.00
2- 3 ft. each.....\$1.00	4- 5 ft. each.....\$3.50
5-6 ft. each.....\$5.00	

Magnolia Glauca—Evergreen. Long, slender, glossy, dark green leaves are silver lined. Fragrant, waxy, white flowers. Hardy as far North as Mass. in sheltered locations.

8-12 in. each.....\$.60	24-30 in. each.....\$2.50
12-18 in. each.....\$1.00	3- 4 ft. each.....\$5.00

Magnolia Grandiflora—Magnificent. Evergreen. The large, thick leaves are rich, glossy green above; soft brown felt underneath. The great, creamy white, waxy flowers are entrancingly fragrant.

8-12 in. each.....\$1.00	24-30 in. each.....\$3.50
18-24 in. each.....\$2.00	30-36 in. each.....\$5.00

Magnolia Acuminata—(**Cucumber Magnolia**) Truly a giant of the forest. Grows to 100 ft. Large leaves. Greenish white flowers. Hardy.

18-24 in. each.....\$1.50	24-30 in. each.....\$2.00
---------------------------	---------------------------

Magnolia Macrophylla—Rare, big leaf Magnolia. In mature trees the leaves will attain a length of 3 ft. Large, fragrant white flowers are 12-14 in. across. Strikingly tropical in appearance but very hardy.

12-18 in. each.....\$1.00	18-24 in. each.....\$2.00
3-4 ft. each.....\$4.00	

Myrtle—Nice, small evergreen tree. Attractive, aromatic foliage. Small white flowers followed by silvery gray berries in Winter. Makes a decorative oramental for porch or patio. Hardy.

18-24 in. each.....\$1.00	24-30 in. each.....\$2.00
---------------------------	---------------------------

Purple Fringe—See Smoke Tree.

Parkinsonia — (Jerusalem Thorn) Very rare and exotic small tree. Pendulous branches with feathery leaves and loose clusters of fragrant yellow flowers in the late Summer. Evergreen in this locality but may defoliate farther North. When established will withstand very dry conditions.

2- 3 ft. each	\$2.00	3- 4 ft. each	\$3.00
4-5 ft. each			\$4.00

Red Bud—Top favorite ornamental. Rosy red, sweet pea like blossoms along the branches, before the large heart shaped leaves appear. Intirely hardy and desirable.

18-24 in. each	\$.60	4- 5 ft. each	\$3.00
2- 3 ft. each	\$1.00	5- 6 ft. each	\$5.00
3- 4 ft. each	\$2.00	6- 8 ft. each	\$8.00
8-10 ft. each			\$10.00

Note—All of the 6-8 ft. and 8-10 ft. have bloomed the last two years. Some of the 5-6 ft. bloomed last year.

Red Maple—Fast becoming one of the most popular of all shade trees. The showy red seed pods, which appear, as bright red flowers in the Spring. The beauty of the green leaves in the Summer and the brilliant Fall coloring along with the staunch hardiness make this tree a prize in anyone's yard.

18-24 in. each	\$.60	3- 4 ft. each	\$2.00
2- 3 ft. each	\$1.00	4- 5 ft. each	\$2.50

Sweet Gum—Grows tall and stately. Intirely hardy. The beautiful star shaped leaves turning to bright crimson make this entire tree a pyramid of flame in the Fall.

18-24 in. each	\$.60	4- 5 ft. each	\$2.50
2- 3 ft. each	\$1.00	5- 6 ft. each	\$4.00
3- 4 ft. each	\$1.50	6- 8 ft. each	\$5.00

Silver Leaved Poplar—Often called Silver Leaved Maple. Showy speciman tree. Gray green leaves lined with silver.

18-24 in. each	\$.60	3- 4 ft. each	\$2.00
2- 3 ft. each	\$1.00	6- 8 ft. spec. ea.	\$5.00

Smoke Tree—Another top favorite. Intirely hardy. Dainty, mist like panicles of purplish to reddish flowers in late Spring give the entire tree a most unusual smoke like appearance. Large leaves turn to most beautiful colors in Fall.

18-24 in. each	\$1.00	24-30 in. each	\$2.00
4-5 ft. each			\$4.00

Stewartia—Listed under Flowering Shrubs.

Sycamore Tree—A really good, fast growing shade tree. Dependable and adaptable to almost any soil and weather condition. The white trunk and graceful branches are most picturesque in Winter.

2- 3 ft. each	\$1.00	5- 6 ft. each	\$3.00
6-8 ft. each			\$4.50

Tulip Tree—Pale yellow tulip like flowers in Spring. Very odd shaped leaves. A beautiful speciman tree.

18-24 in. each	\$.60	30-36 in. each	\$2.00
24-30 in. each	\$1.00	4- 5 ft. each	\$3.00

Tung Nut Tree—Exotic, salmon pink flowers in Spring. The large heart shaped leaves and rapid growth make this medium size tree very desirable.

18-24 in. each	\$.60	3- 4 ft. each	\$2.00
24-30 in. each	\$1.00	4- 5 ft. each	\$3.00

Wisteria Tree—No more beautiful tree. Huge panicles of lavender flowers in early Spring.

3-4 ft. each.....\$2.00
4-5 ft. blooming size, each.....\$5.00

White Fringe Tree—(Old Man Grey Beard) The wavy panicles of delicate white fringe like flowers to 8 inches make this a most strikingly beautiful tree for lawn or shrub border specimen.

8-12 in. each.....\$1.00 3- 4 ft. each.....\$2.50
2- 3 ft. each.....\$1.50 4- 5 ft. each.....\$5.00

VINES

Your Selection—10% Discount—Any 6 Plants or More

Bignonia—(Trumpet Vine) Evergreen. Showy clusters of brilliant, flame colored, tubular flowers, in Summer. May be staked and pruned to tree form, making a very showy, weeping, miniature tree.

12-18 in. 2-yr. each.....\$.60
18-24 in. 3-4 yr. each.....\$1.00

Bittersweet—Vigorous, with bright green foliage. Very showy seed pods. Outer pod is yellow and when opened shows red seeds, which persist through the Winter. Relished by birds and tolerant of most soil and weather conditions.

12-18 in. 2 yr. each \$.60 18-24 in. each.....\$1.00

Confederate Jasmine—(Star Jasmine) Evergreen favorite. Small, thick, glossy leaves, clusters of waxy white flowers of entrancing fragrance, through the Summer months. Sun or shade.

Strong 2 yr. each.....\$.75
Strong 3 yr. good runners, each.....\$1.00
Strong 4 yr. long runners, each.....\$2.00

Dutchman's Pipe—Rare, interesting. Hardy, large soft leaves. Exotic, large, deep violet flowers, with tail like appendage, forming the shape of a pipe.

Strong 2 yr. each.....\$.60

Ivy—(Westminster Ivy) The original stock of this came from Westminster Abby in London. Large, rich green leaves 3-4 in. across. Suitable for all the uses of regular Ivy; but much more handsome.

Strong 2 yr. Qt. cans, each.....\$.60

Lantana—Lavender flowers. Splendid for trellis, porch box, as a ground cover to hold soil on banks or in the rock garden.

Medium Clump, each.....\$.60
Large Clump, each.....\$1.00

Honeysuckle—(Lonicera Sempervirens) Fragrant coral red, trumpet shaped flowers, through the Summer, followed by red fruits, attractive to birds.

Strong 2 yr. each.....\$.60

Honeysuckle—Evergreen. Fragrant white flowers turning to pale yellow. Suitable for all the uses of an exceptionally good evergreen vine.

Medium Clump, each.....\$.60
Large Clump, each.....\$1.00

Yellow Jasmine—Evergreen. Graceful growth and the dainty, fragrant, yellow flowers make this an unusually attractive vine.

Strong 2 yr. each.....\$.60
Strong 3 yr. good runners, each.....\$1.00
Heavy, older vines, long runners, each \$2.00

Vinca Minor—Splendid evergreen. Semi vine or ground cover. Lavender, blue flowers. Sun or shade. Hardy.

Medium Clump, each.....\$.60
Large Clump, each.....\$1.00

Wisteria—Strong, hardy, giant growing, but may be kept pruned to smaller proportions. Flowers in large, lavender clusters. Our vines are all produced from cuttings from a very free flowering, parent plant.

Strong, 2 yr. each.....\$.60
Older plants, each.....\$1.00

MISCELLANEOUS

Allamanda—Semi Vine. Large, trumpet shaped, lemon yellow flowers. Used extensively in Bellingrath Gardens for Summer blooming and becoming more popular all through the Southern States. Tender, but may be kept over Winter as a house plant. Requires sun for good blooming.

Strong 12-18 in. each.....\$1.00
Strong 18-24 in. blooming size, each.....\$2.00

Alternanthera—Charming, dwarf border plant, forming a ball shape of about 12 in. spread. The tiny leaves turning to all the bright colors of the rainbow in sun or after frost. Needs to be covered with mulch or straw for Winter protection.

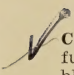

Strong 2 yr. in cans, each.....\$.60

Ardisia Crenulata—Another fine, dwarf border plant, used extensively in Bellingrath Gardens. Dark green, glossy leaves. Small white flowers followed by abundant red berries, which often hang on until the next crop. Hardy in this locality, but farther North may be taken in as a splendid pot plant. The berries generally assuming their red coloring about Christmas time.

6-8 in. from cans, each.....\$.75
8-12 in. from cans, each.....\$1.00

Aspidistra—Broad, long, dark rich green, evergreen, leaves of upright growth. Used extensively in dense shade, under trees as ground cover; for borders; for window and porch boxes.

Strong clumps, cans, ea....\$.50 3....\$1.25

 **Confederate Rose**—(**Hibiscus Mutabilis**) Most beautiful and interesting. Large, peony formed flowers; blooming in late Summer. Opening, creamy white, turning to blush pink and finally to bright rose before falling. Older plants are indeed beautiful with the various shades of large flowers at the same time. Hardy, wherever the Mallow Hibiscus will grow. In severe weather will freeze back, but revive in Spring. Grows into a large plant. Should be cut back severely in the Fall.

8-12 in. each.....\$.75 12-18 in. each.....\$1.00
4-5 ft. heavy, blooming size, each.....\$3.50

Fortunes Grass—Showy, tropical appearing. Growing into large clumps to 8 ft. Blades of grass are snow white with bright green stripes. Should be kept cut back as the new growth produces the whitest coloring. Needs full sun.

Large Rizomes, 3.....\$1.00

Ophiopagon—(Monkey Grass—Dragon's Beard) Low grass like evergreen. Splendid border plant for walks, shrubby beds, etc. Valuable as a ground cover, under trees, for banks, etc. Sun or shade.

Special Price, 50 plants.....\$1.00

Liriope Muscari Densiflora—(Big Blue Liriope) Becoming very popular as a border plant. Similar to Ophiopagon, but larger and broader leaves. Spikes of lavender, blue flowers, resembling Hyacinths, followed by bright, blue, black berries. Sun or shade.

Small clumps, 10.....\$.75

Medium clumps, 10.....\$1.00

Sword Fern—Luxurious and excellent for those cool shady places, but, will also withstand considerable sun. For shrubby beds, for entire beds, for under trees, for naturalizing, for porch or patio, or as a splendid house plant. Similar in appearance to the well known Boston Fern. Evergreen in mild Winters; Tops will freeze back in severe weather; but revive quickly in the Spring.

Clumps, from Qt. cans, 12-18 in. each....\$.60

Clumps from Gal. cans, 12-18 in. each....\$1.00

Clumps may be divided into several plants.

ROSES

Old Fashioned Rambler-Seven Sisters—Large clusters of bright, rosy red rosettes literally cover the plant in May and June. A joy to all who see them.

White Rambler—Rare. Same habits as above but clusters of flowers are snowy white.

Louis Phillippe—Favorite, old fashioned bush rose. One of the finest of all evergreen landscape plants. Dark red, double blooms, almost continually.

PRICES OF ABOVE THREE ROSES

Strong, 2 yr. each.....\$.60

Older, heavier plants, each.....\$1.00

DAY LILIES

Fine Hybrids—Named Varieties

Bagdad—Glowing copper over orange. Really Oriental.

Bijou—Orange background, overlaid with copper.

Chicsa—Very interesting. Sepals red, alternating petals of pale buff.

Kwanso—Double. Orange copper.

Margaret Perry—Rose buff lined with red.

Sovereign—Dwarf. Pale yellow. This is it for a colorful Spring border.

Sir Michael Foster—Large flowers. Apricot yellow.

PRICES OF ABOVE VARIETIES

35 cents each, 3.....\$1.00

Minimum order.....\$1.00

Hyperion—New ones may come and go but this fine favorite has never been excelled. Large, waxy, slightly waved petals of soft canary yellow.

Special Price.....50 cents each

BULBS

Minimum order for Bulbs.....\$2.00

Amaryllis—Plan a riot of color, in your yards, this Spring, with these exotic flowers. Ranging in color from almost white to solid dark red. Meade strain, giant Hybrids. Mixed colors, easy to grow.

Blooming size bulbs:

35 cents each 10.....\$3.00

Large—50 cents each 10.....\$4.50

Jumbo—\$1.00 each 10.....\$9.00

Spider Lily—(Lycoris Rubrum) Lovely red blossom appears in Summer, after the leaves have disappeared.

Medium, blooming size.....10 cents each

Large, blooming size.....15 cents each

Parrott Lily—(Alstoemeria) Rare and seldom seen, but hardy and require little attention. Tuberous rooted but treated as bulbs. The unusual and attractive 2 in. long, lily shaped flowers are dark red, spotted and tipped with brilliant green. Appear in clusters on stalks about 18 in. followed by attractive seed pods. They produce good sized clumps, which may be divided. The soft green leaves die down after blooming, but soon come up again, producing an evergreen clump, in this locality.

Blooming size.....10 cents each

Large blooming size.....15 cents each

TESTIMONIALS

Silver Bay Nurseries honestly strive to sell and ship only good plants. We wrap, pack and crate the plants at a great expense in labor and materials.

Letters with excerpts like these are truly appreciated by us.

Arkansas—"I was so well pleased with the shipment of Azaleas, that I want to place another order."

Alabama—"The plants came in perfect condition and I am so happy and thrilled over them."

California—"They are fine size plants and I want to order more of them."

Georgia—"I received the plants and they were in perfect shape."

Kentucky—"Received your very nice plants. They arrived in splendid shape. I was very well pleased."

Louisiana—"My beautiful plants (Apple Blossom Crepe Myrtle), that I bought from you, were the joy of the neighborhood, this Summer."

North Carolina—"It is a pleasure to deal with such a capable and cooperative firm as Silver Bay Nurseries."

Ohio—"Received the Azaleas last week and have planted them. Never saw such lovely plants and excellent packing."

Oklahoma—"I received the plants three days ago. They were well packed and in excellent shape."

South Carolina—"The plants arrived this P. M., in excellent condition, because you wrapped them so very carefully."

Texas—"Received my beautiful plants, and am really proud of them. They were in perfect condition and looked as if they had just been dug."

Virginia—"The Capellias received from you last year have done real well. They bloomed beautifully last spring and are well budded this year."

Virginia—"The Gardenias arrived in good time and in splendid shape. The packing was a superb job. One rarely sees such careful work any more, these days. And each plant was a beauty in its own right."
